You shouldn't need one. I would recommend contacting Julie.

Hey Pat,

That's great. Here is the link that I have to Jacobs' OneDrive sharepoint site: https://jacobsengineering-my.sharepoint.com/personal/julianne_schucker_jacobs_com/_layouts/15/onedrive.aspx?e=5%3a8f575f0634a04048add85d0708e32a74&at=9&cid=9bec44ba-2659-46c7-8091-6978085570ed&id=%2fpersonal%2fjulianne_schucker_jacobs_com%2fDocuments%2fCuyahoga+River-Gorge+Dam+Project&FolderCTID=0x012000440C231466249E429DAF545B4CA84F8C

This link may not work for you. You can either request access from Julie directly and she will send you a link or ask Heather to upload the data for you. I know that Heather has posted stuff on the sharepoint before.

Thanks,
-MB

We have some LIDAR data from 2015 that might be useful. What is the location of the shared drive location to send the data?

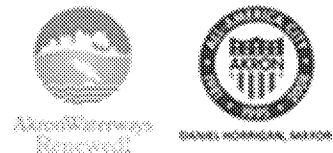

Pat G.

Hi Tony,

Just wanted to let you know that we did discuss this on the PCT call today. We think this may be a question that will be better answered by the larger stakeholder group, so Elaine will add it to the agenda for the next stakeholder meeting on Sept 19. But, we did get a couple of suggestions:

Elaine remembers there being a power source in the project area in the 90s, so we may be able to research that a bit more to see if anything remains that we can tap into or at least get an idea of how it was done before.

And I think it was Pat that suggested using a solar-powered battery.

Subject: Gorge Dam PCT conf call

Good morning Mary Beth,

I may or may not be able to be on today's conference call. In case I'm not I wanted to let you know that Cuyahoga Falls IT Department has begun investigating the feasibility of installing a web-cam at the project site to capture the construction activities. One of the hurdles they see is lack of power supply. CF Power doesn't have power at the site, but possibly First Energy does? I'm sure we'll be talking about this more as we get closer to construction.

Tony V. Demasi P.E., City Engineer
City of Cuyahoga Falls

Subject: Gorge Dam PCT conf call minutes

Hi All,

Minutes from this week's conference call are attached along with revised minutes from the June 12 call. The revisions should be in green font in track changes (at least, it shows up green for me). The only changes are in the first paragraph under agenda item #2.

The next call is scheduled for Wed, August 14 at 11:30am eastern.

Talk to you then.

-Mary Beth
